City of Rockford Announces Amended Start Date to Distribute Recycling Containers

ROCKFORD – The City of Rockford and Rock River Disposal have announced that plans to begin distribution of new recycling containers have been delayed. The manufacturer suffered an operational system failure which has delayed production extending the delivery schedule by one week. It is anticipated that delivery of the containers to residents will begin the week of March 24th – 28th

It is estimated that approximately 1300 containers will be delivered daily taking anywhere between 8-9 weeks to complete all deliveries. The proposed drop off routing will begin with Wednesday garbage pick-up locations followed by Thursday, Monday and ending with Tuesday locations. The public will be updated weekly as to areas delivered and also those that will be delivered next.

Residents are encouraged to visit Rock River Disposals website at www.rockriverdisposal.com for updates and progress on deliveries.
